

August 18, 2020

Like Reeder Concrete, McClure Partners is a multi-generation family owned company that prides itself on long standing relationships. We have worked with Reeder Concrete through two generations for over twenty years from everything to several hundred thousand square foot industrial buildings to small retail projects. They handle both the earthwork and the concrete work on our projects which has proved invaluable. Reeder has the experience to do it all.

Sincerely,

A handwritten signature in blue ink, appearing to read 'JW McClure'.

John W. McClure
